TRI-CITIES SHOOTING ASSOCIATION 11 – 13 OCTOBER 2024

EQUIPMENT and AMMUNITION:

Competitors must shoot their discipline specific rifles in all individual matches to be eligible for Category awards.

Any safe rifle may participate. However, to have the scores reported to the NRA, the equipment must comply with one of the categories from the applicable current NRA High Power Rules book. Shooters are responsible to self-identify the particular type of rifle for those compliant with the NRA rules book in order to have their scores reported to the NRA. At Match Director's discretion, other safe, non-compliant rifles may be allowed to participate, including those with muzzle brakes and suppressors; scores will not be reported to the NRA.

As matches will be fired on ShotMarker electronic targets, shooters will need to bring a Wi-Fi enabled device (phone/tablet).

Any safe ammunition may be used; the use of tracer, incendiary, or armor piercing ammunition is prohibited. Fired rounds that fail to reach the target at supersonic velocity and/or fail to impact the target berm will cause the competitor to be removed from the firing line.
